With children and their future in mind...

that's exactly how the ecological KIDS collection was designed. Guaranteeing the safety of the youngest, our products blend ecology, aesthetics, and functionality, simultaneously representing the craftsmanship of artisans.

Each product is hand-painted with casein paint, safe for children and free from harmful chemicals.

Casein paint possesses unique properties. Its durability and resistance to wear ensure that the coating remains intact even with intensive use. Additionally, due to its breathable nature, casein paint allows for the free flow of air, which is crucial for maintaining a healthy climate indoors.

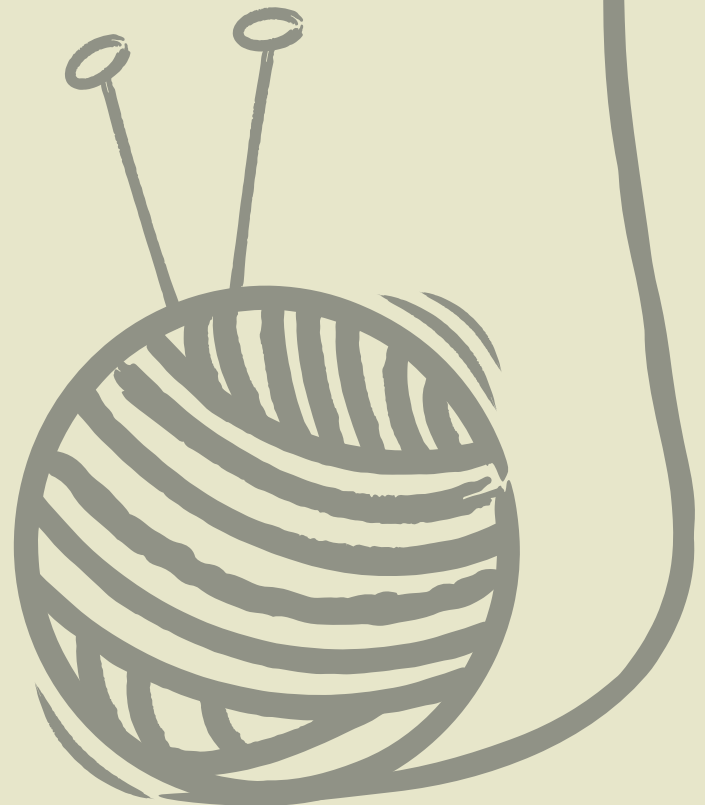

An incredibly significant feature is also the ecological nature of casein paint, based on natural ingredients such as milk protein. This solution serves as a more environmentally friendly alternative compared to many other types of paints used in homes. An additional advantage is its antibacterial properties.

Our products are not only resistant to damage, ensuring long-term satisfaction with their use, but are also hand-assembled, demonstrating our attention to the smallest details.

Each of our products is a unique piece that can be customized to meet the individual needs and preferences of your child. Manual assembly allows for changes in patterns and colors, catering to the imagination of even our most demanding customers.

Caring for the environment, we limit waste production, utilize renewable energy sources, and carefully select materials with appropriate quality certifications.

Our ecological products made from MDF and beech wood will enrich your child's room with creativity and play.

Z myślą o dzieciach, i ich przyszłości...

tak właśnie została zaprojektowana ekologiczna kolekcja KIDS. Gwarantując bezpieczeństwo najmłodszych, nasze wyroby łączą w sobie ekologię, estetykę oraz funkcjonalność, będąc jednocześnie dziełem rąk rzemieślników.

Każdy produkt jest ręcznie malowany farbą kazeinową, bezpieczną dla dzieci i pozbawioną szkodliwych substancji chemicznych.

Farba kazeinowa posiada unikalne właściwości. Jej trwałość i odporność na ścieranie sprawiają, że powłoka utrzymuje się bez uszczerbku nawet przy intensywnym użytkowaniu. Dodatkowo, dzięki zdolności do oddychania, farba kazeinowa umożliwia swobodny przepływ powietrza, co jest kluczowe dla utrzymania zdrowego klimatu w pomieszczeniach. Niezwykle istotną cechą jest również ekologiczność farby kazeinowej, opartej na naturalnych składnikach, takich jak proteina mleka. To rozwiązanie stanowi bardziej przyjazną dla środowiska alternatywę w porównaniu do wielu innych rodzajów farb stosowanych w domach. Dodatkowym atutem jest jej antybakteryjność,

Nasze produkty są nie tylko odporne na uszkodzenia, co gwarantuje długotrwałą satysfakcję z ich użytkowania, ale również są składane ręcznie, co świadczy o naszej dbałości o najdrobniejsze detale.

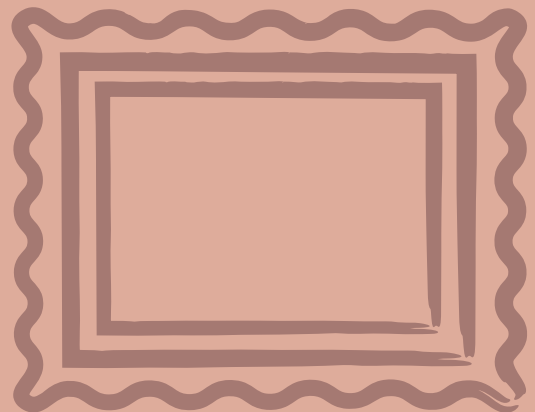

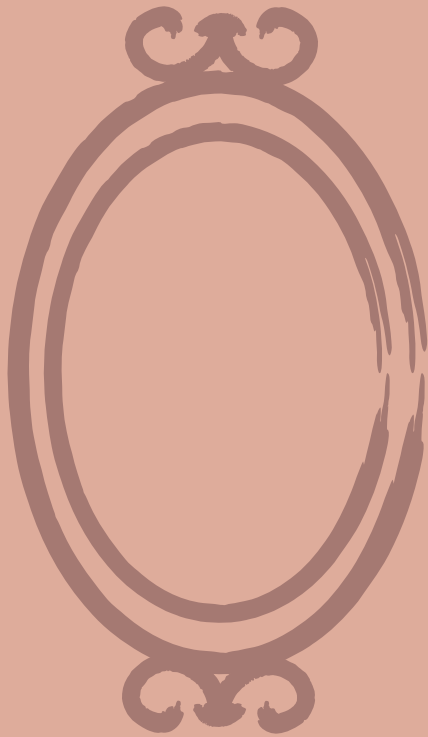

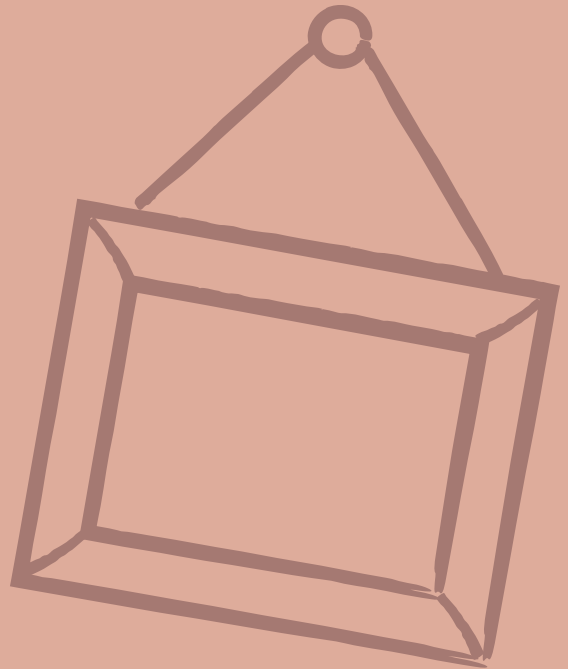

Każdy nasz produkt jest niepowtarzalnym dziełem, które możemy dostosować do indywidualnych potrzeb i gustów Twojego dziecka. Ręczne składanie

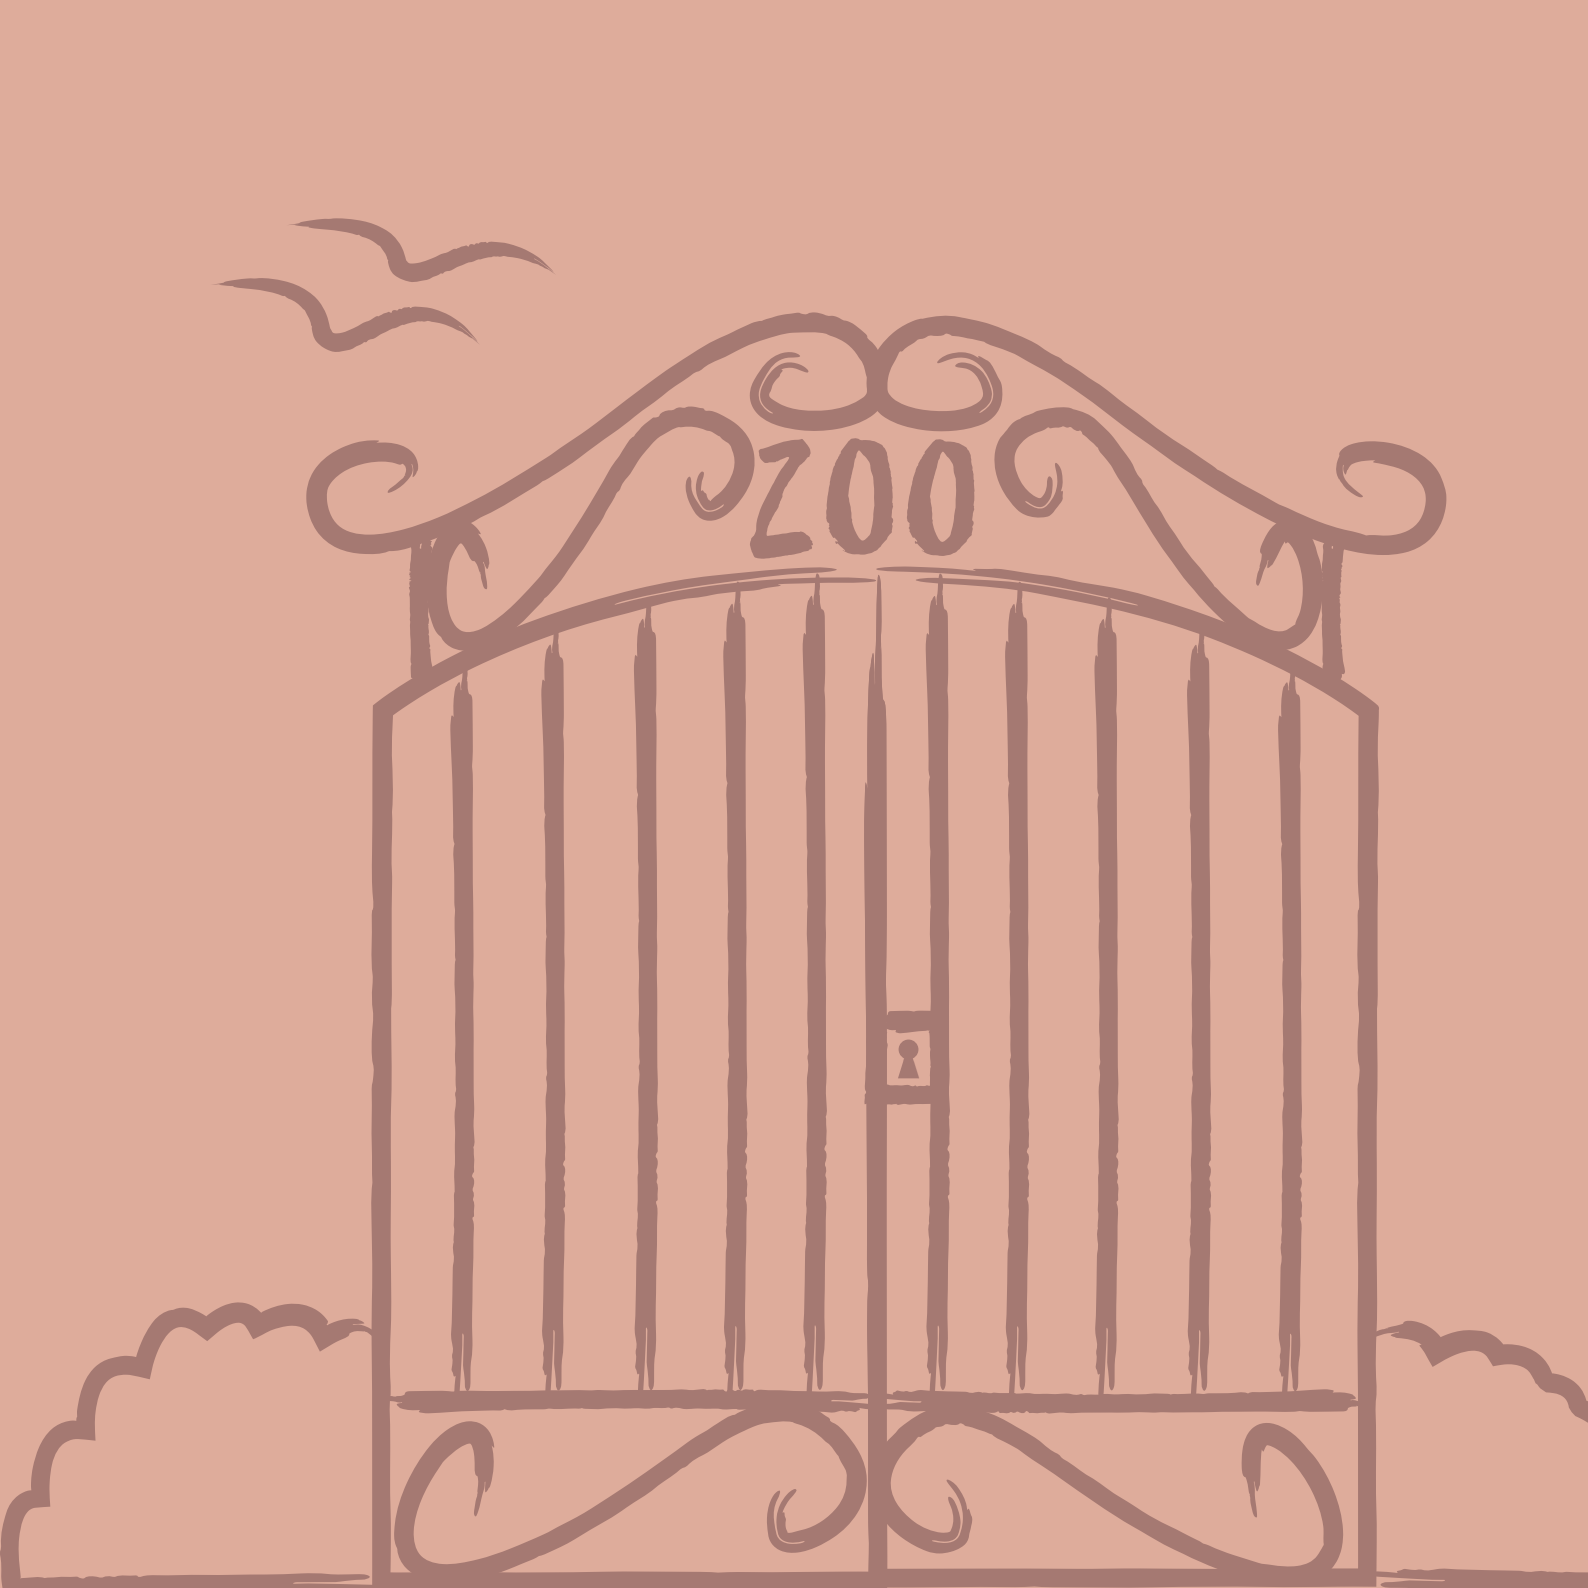

pozwała na zmiany w wzorach i kolorach, tak aby sprostać wyobraźni nawet naszych najbardziej wymagających klientów.

Dbając o środowisko, ograniczamy produkcję odpadów, korzystamy z odnawialnych źródeł energii i starannie wybieramy surowce posiadające odpowiednie certyfikaty jakości.

Nasze ekologiczne produkty wykonane z MDF i drewna bukowego wzbogacą pokój Twojego dziecka o kreatywność i zabawę.
