About us...

DESIGN

Home to an experienced in-house team of British designers. Our lighting collections are developed with passion, focusing on the future whilst respecting our strong manufacturing heritage. We design and manufacture enticing on-trend lighting that complements any interior style you desire.

www.endoncollection.com

Crystal

Add sumptuous elegance to any room, exquisite when lit and equally as effective during the daytime, as the light creates decorative patterns on walls and ceilings. Use the perfect crystal chandelier to add a touch of the dramatic.

The *Style* GUIDE...

Modern

Modern lighting is based around geometric forms that are simple yet bold in design. Materials and finishes are sophisticated and vary from reflective glass with highly polished plating to satin brushed effects with glowing white glass shades. Let your lighting stand out without being crowded.

The *Style* GUIDE...

Architectural PROJECT

Popular with lighting designers, interior designers and architects, these luminaires enable you to create either a modern minimalist effect or a real statement for your design project. Anti-glare trimless downlights and concealed LED ceiling profiles are perfect for a layered minimalist look. Combine modern LED hoop pendants, LED task lights and beautiful plaster wall lighting to create contemporary, functional lighting with maximum impact.

The *Style* GUIDE...

Scandi

Influenced by design styles from Sweden, Norway, Denmark and Finland. Scandinavian interior lighting works best with neutral colour palettes. Minimalist light fixtures with table and floor lamps are regularly used to set the mood, combined with a statement ceiling light to bring the room together, adding understated elegance and warm functionality, resulting in spaces that are filled with light.

LED | Filament | Industrial

LED lamps are an essential part of today's on-trend interiors. Create a unique refreshing style with a nod to the past. Go for single cable sets, positioned over designer surfaces and paired with vintage LED filament and anti-glare lamps. Bare but bold, the perfect industrial style.

Boutique Hotel

Add a touch of luxury to your interior. Statement ceiling lighting for a glamorous feel, twinned with wall lights, recessed downlights and concealed lighting for a layered lighting effect. Statement pendant lights can also be positioned by bedsides creating drama and to ensure spaces remain uncluttered. For a professional feel, go for bedside lights with dual light sources, soft, ambient light for relaxing, mixed with the versatility of a bright LED reading light, perfect for re-creating a designer hotel style.

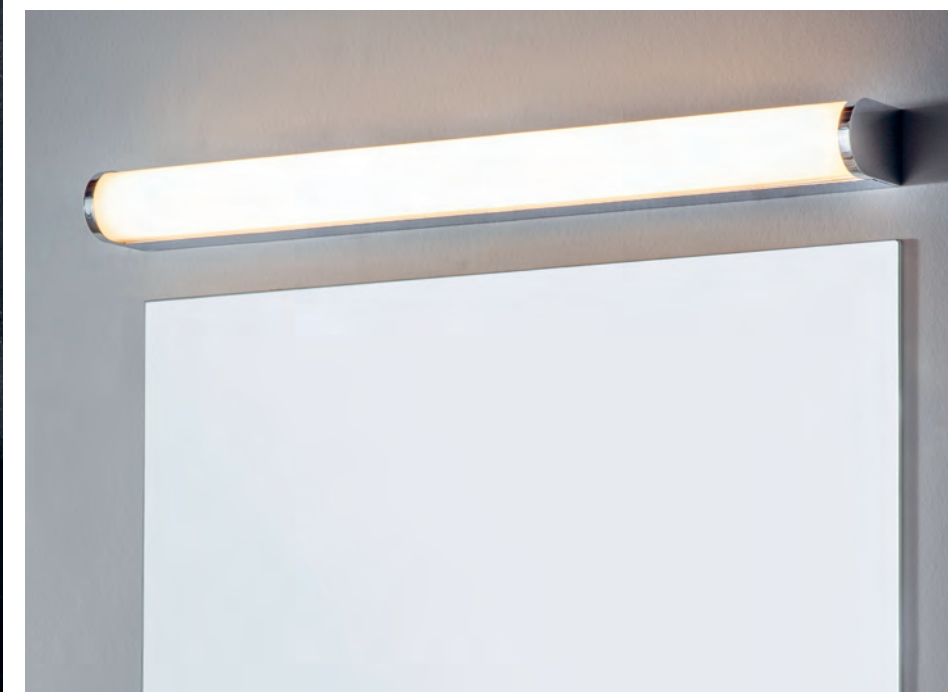

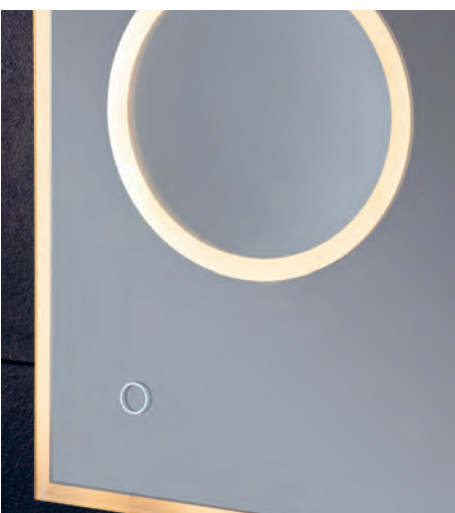

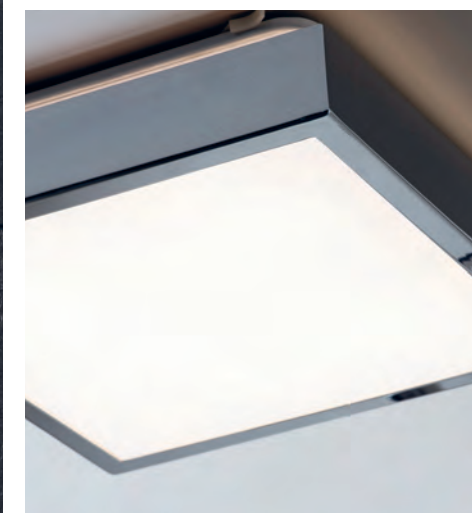

The *Style* GUIDE...

Classic

Take everything that is great about the past and make it even better, with a subtle modern twist. Classic lighting is a relaxed modern take on designs that have stood the test of time, a timeless choice.

Bathroom

If you desire a sleek, clean family space or a splash of hotel-style chic, we've selected a range of inspiring lighting for you to make a statement and indulge yourself.

Interior

An eye-catching collection of chic style and glamour, this highly decorative range is adorned by tinted ribbed glass and silk fabric shades for that boutique hotel look.

OPTIMO
SMART

2. **Optimo SMART CCT** 80550
Matt white
Proj: 3mm Dia: 110mm
Integrated LED 450 lumens

The Optimo Smart boasts the same technical specification as the Optimo Pro CCT.

In addition, this smart fitting can all be controlled via our EndonSmart app, for complete control over changing colour temperature, dimming or switching on and off. Also compatible with Amazon Alexa & Google Assistant, enabling voice activation control.

- Turn your lights on and off
- Select colours from warm white to cool white
- Fully dimmable from 10-100%
- Set automated on and off times

It's simple to set up...

Download the EndonSmart app and register. Follow in-app directions to add your lighting device/s. You're now ready to go!

The EndonSmart app is compatible with Amazon Alexa & Google Home allowing you to control your fittings with voice control.

Logic recessed downlights contain all the technical features required of an everyday integrated LED downlight, fire rated (unless used with trimless bezel), IP65 and dimmable. A slim design profile, producing 500 lumens of bright light, with 60° anti-glare lens. Quick to install with tool-less push fit connectors. Available in warm white or cool white.

OPTIMO

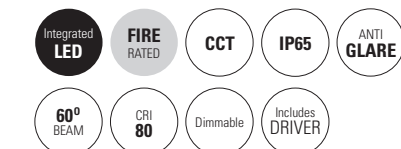

Recessed and technology

A collection of LED recessed and concealed lighting allowing you to carefully highlight areas of your interior project with the perfect amount of light. Designer lighting with subtle styling complements the range, appealing to a clean-line modern aesthetic.

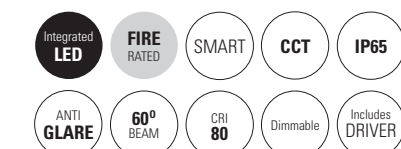

1. Optimo Pro CCT 80526
Matt white
Proj: 3mm Dia: 110mm
Integrated LED 450 lumens

Using the latest in Colour Changing Technology (CCT), each Optimo PRO can be warm white or cool white with a simple flick of a switch. With 450 lumens of indirect light output from inside the unique anti-glare dome. This slim line, patented design is fire rated, IP65 rated. Supplied with a high quality dimmable driver that works with leading and trailing edge dimmers. Fitted with a push fit tool-less terminal block for ease of install.

2. Optimo SMART CCT 80550
Matt white
Proj: 3mm Dia: 110mm
Integrated LED 450 lumens

The Optimo Smart boasts the same technical specification as the Optimo Pro CCT.

In addition, this smart fitting can be controlled via our EndonSmart app, for complete control over changing colour temperature, dimming or switching on and off. Also compatible with Amazon Alexa & Google Assistant, enabling voice activation control.

- Turn your lights on and off
- Select colours from warm white to cool white
- Fully dimmable from 10-100%
- Set automated on and off times

It's simple to set up...

Download the EndonSmart app and register. Follow in-app directions to add your lighting device/s. You're now ready to go!

The EndonSmart app is compatible with Amazon Alexa & Google Home allowing you to control your fittings with voice control.

logic

*An easy to install, everyday
LED downlight, engineered with
all the latest technical features.*

*Achieve a 'minimal'
modern profile, with extra
trimless bezel accessory.*

3 & 5.

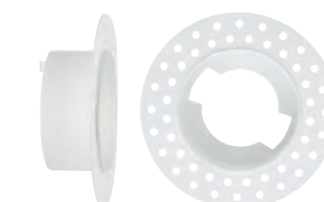

Logic recessed downlights contain all the technical features required of an everyday integrated LED downlight, fire rated (unless used with trimless bezel), IP65 and dimmable. A slim design profile, producing 500 lumens of bright light, with 60° anti-glare lens. Quick to install with tool-less push fit connectors. Available in warm white or cool white.

Guide lights

Timeless and functional, use these plaster LED guide lights in corridors and staircases for superb low-level lighting.

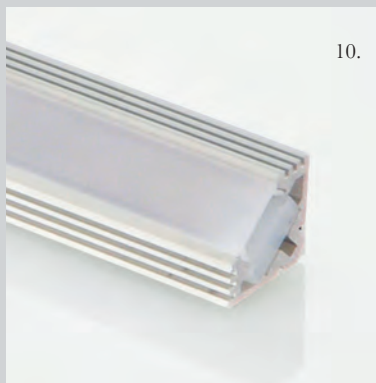

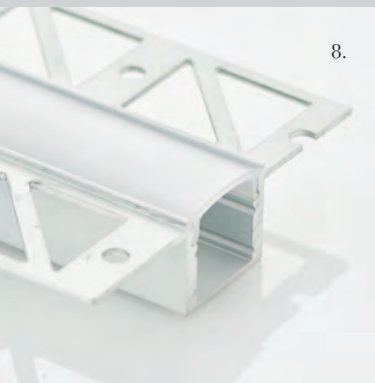

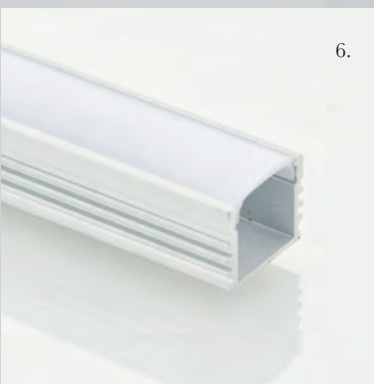

Latitude tape is energy efficient, adaptable and flexible. Easy to install and ideal for accent or mood lighting throughout.

Tape and profiles

Perfect when installed in a selection of aluminium profiles, surface mounted, slim-line, recessed, plastered in or corner for the complete concealed architectural look. The easy to install, with push on polycarbonate diffusers, effectively concealing the LED tape, creating a softer lighting effect.

Integrated
LED

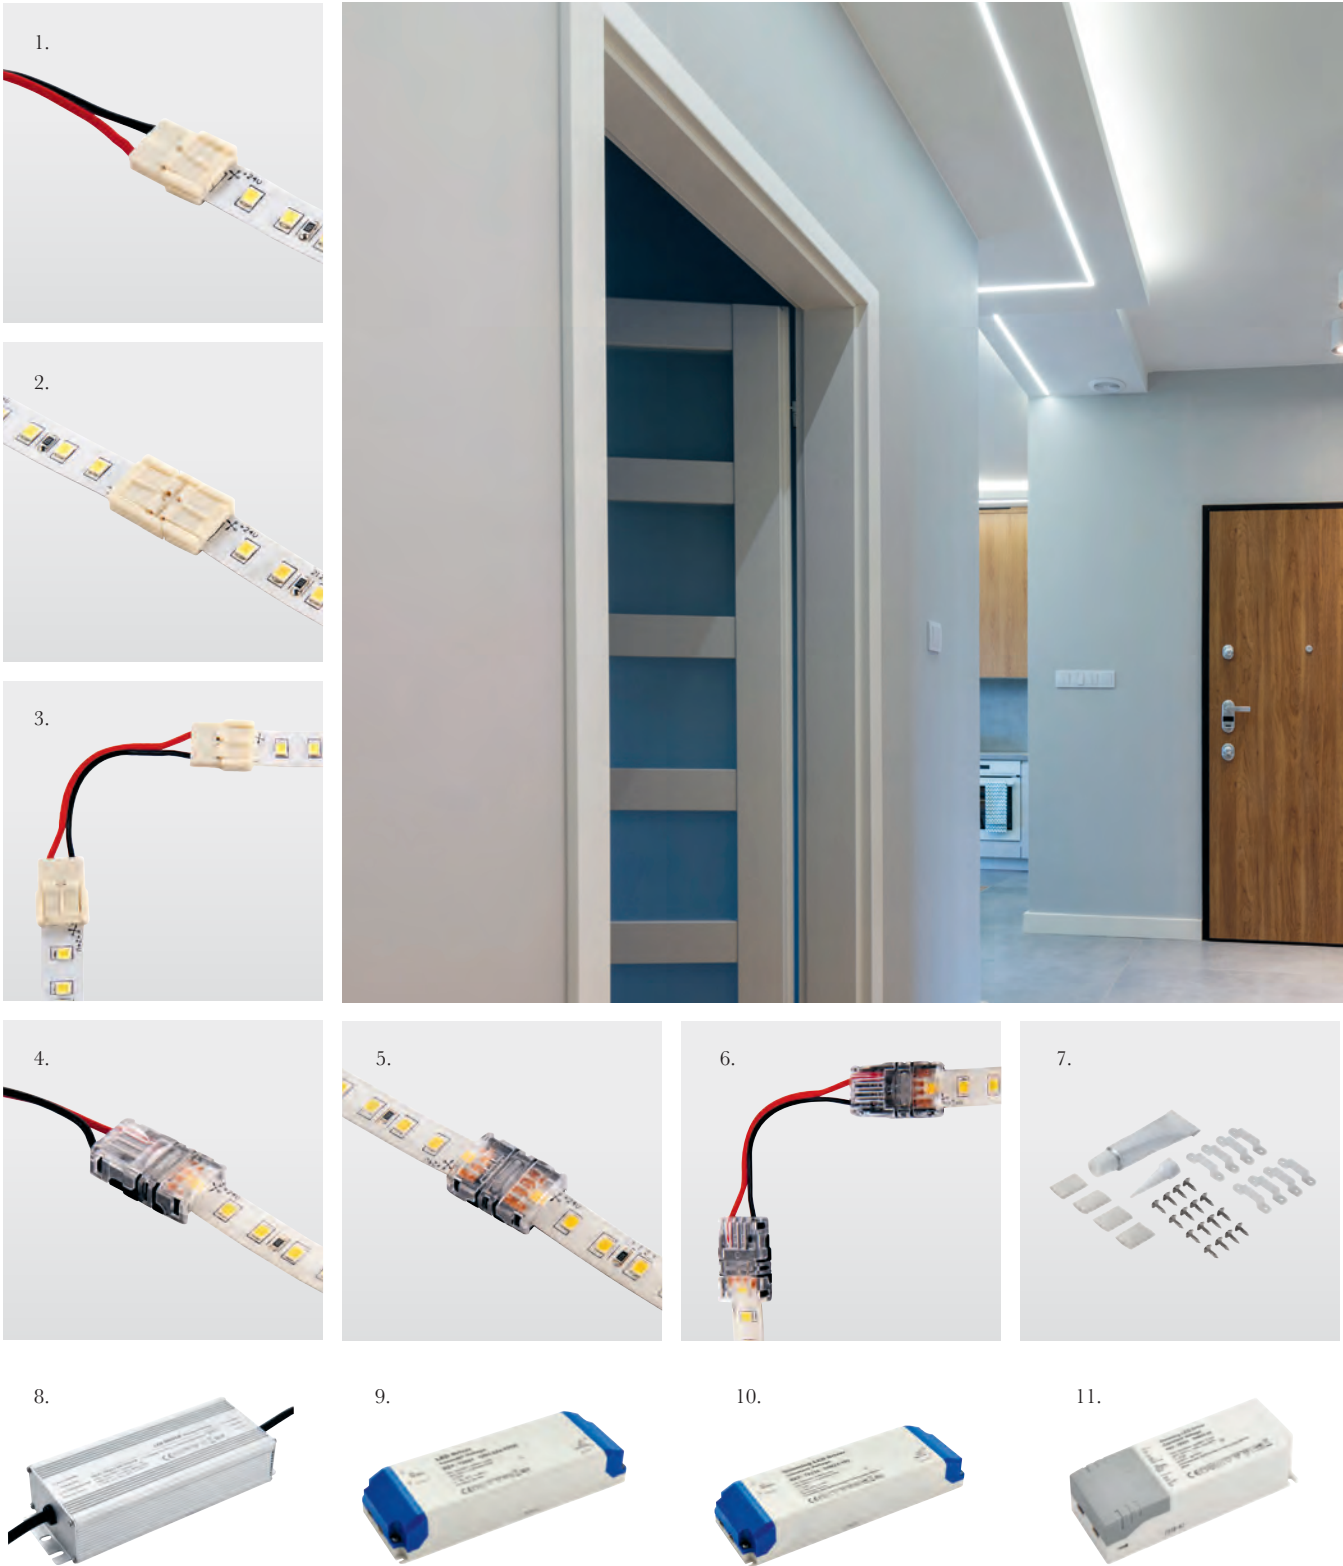

Latitude LED tape is powerful enough to be used as complete, indirect interior lighting. Available as IP20 or IP65 rated and in a warm or cool white colour temperature. Tailor your selection to your requirements, by selecting your desired connectors and LED drivers.

1. **Latitude 5m warm white IP20 tape** 80553. L: 5000mm W: 10mm Proj: 1.1mm. Integrated LED 3000 lumens. Requires a LED driver
2. **Latitude 5m cool white IP20 tape** 80554. L: 5000mm W: 10mm Proj: 1.1mm. Integrated LED 3000 lumens. Requires a LED driver
3. **Latitude 5m warm white IP65 tape** 80555. L: 5000mm W: 10mm Proj: 2mm. Integrated LED 5000 lumens. Requires a LED driver
4. **Latitude 5m cool white IP65 tape** 80556. L: 5000mm W: 10mm Proj: 2mm. Integrated LED 5000 lumens. Requires a LED driver

For our range of accessories and drivers see page 194

Plastered in extrusion is designed to be installed into the wall or ceiling during the early stages of a build, allowing the LED tape to be fitted later. Where required, you can extend your basic strip with individual strips. Accessories available separately.

The E27 and GU10 Smart lamps allow you to choose the perfect shade of light for your home.

With a range from 2700K to 6500K these lamps are ideal for creating your personal lighting ambience.

Controlled via our EndonSmart app, enabling you complete control over changing colour temperature, dimming or switching on and off.

Also compatible with Amazon Alexa & Google Home, enabling voice activation control. Both lamps can be dimmed between 10% - 100% via the app or through voice control.

- Turn your lights on and off
- Select colours from warm white to cool white
- Fully dimmable from 10-100%
- Set automated on and off times

It's simple to set up...
Download the EndonSmart app and register. Follow in-app directions to add your lighting device/s. You're now ready to go!

The EndonSmart app is compatible with Amazon Alexa & Google Home allowing you to control your fittings with voice control.

IP Rating (Ingress Protection)

Zone 0 Zone 1 Zone 2 Outside

Zone 0 - Within a bath or shower tray. All lights fitted within this area must be IP68 rated and low voltage.

Zone 1 - Above the bath or shower to a height of 2250mm. All lights fitted within this area must be a minimum of IP44 rated. Where a shower head is above the bath IP65 should be used. Lights must be protected by a 30mA RCD if supplied at mains voltage.

Zone 2 - 600mm outside of Zone 1 and a 600mm radius above washbasins. All fittings in this area should be a minimum of IP44, unless there is a danger of direct water jet spray in which case IP65 rating is required.

Outside Zones/Zone 3 - There are no special requirements in this zone in the UK. In Ireland Zone 3 requires IP rated products.

Colour Temperature

Warm white 3000K
Warmer white light is generally preferred for creating a more relaxed environment in living spaces, dining rooms, reception areas.

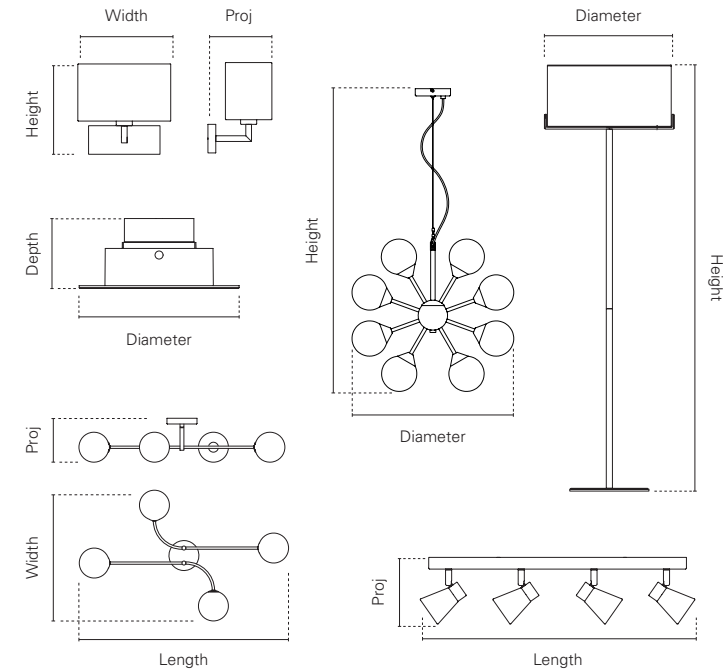

Cool white 4000K
Cool white is a great choice for areas where simulated natural is preferred. Perfect for tasks areas, such as kitchens and bathrooms.

CRI
Colour rendering index, relates to the ability of a light source or product to show accurate colours when compared to an ideal or natural light source.

Wattage Conversion

OLD WATTAGE (Incandescent)	LUMENS (Typical)	LED WATTAGE (Typical)
15W	140	1-2W
25W	250	2-4W
40W	470	4-6W
60W	800	6-10W
75W	1050	10-12W
100W	1500	14-16W

ENDON®

COLLECTION

The complete lighting solution

Endon designers take great care with the colours used in the 'Collection'. The limitations of the printing process may mean a slight variation in colour. Every reasonable care has been taken to ensure that the reproductions are accurate. Descriptions in the catalogue are approximate only. Due to the nature of the product and its manufacture, there may be variations in materials, colour, size and finish.

We always seek to improve our product and reserve the right to make changes at any time without notice. This catalogue supersedes all previous issues.
